

• TRAVERSE • WHEEL-FREE JACKS • ACHSHEBER • TRAVERSES DE LEVAGE • GATOS DE ELEVACIÓN

Fare riferimento al listino prezzi per i codici dei ponti dove utilizzare ogni traversa.

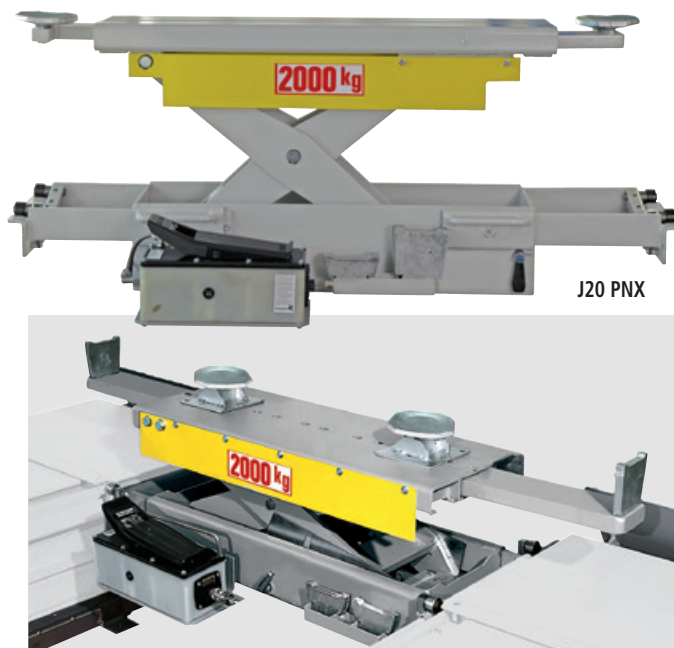

See pricelist for lifts applicability of each wheel free jack.

Siehe Preisliste für den genauen Einsatz auf Hebebühnentyp.

Voir le tarif pour les références des élévateurs ou utiliser chaque traverse.

Ver la lista de precios para las referencias de los elevadores donde utilizar cada gato.

- Grande corsa di sollevamento
- Dispositivo di traslazione su rulli elastici
- Dispositivo di arresto meccanico ad inserimento automatico e sblocco manuale
- Comando di discesa a due mani, a uomo presente
- Great lifting height
- Translation device on elastic rollers
- Automatically-engaging and pneumatic-release mechanical lock device
- Two-hand "deadman" lowering control
- Grosser Hublauf
- Translationsvorrichtung auf Federrollen
- Mechanische Stützeinrichtung mit automatischer Einrastung und pneumatischer Entriegelung
- Zweihand-Absenksteuerung mit Totmannsystem
- Grande course de levage.
- Dispositif de translation sur rouleaux élastiques.
- Dispositif d'arrêt mécanique à introduction automatique et dégagement manuel.
- Commande de descente à deux mains de type "homme mort".
- Grande altura de elevación.
- Dispositivo de traslación sobre rodillos elásticos.
- Dispositivo de bloqueo mecánico a inserción automática y desbloqueo manual.
- Mando de bajada a dos manos de tipo hombre presente.

- Azionamento tramite pompa a mano.
- Dispositivo di arresto meccanico ad inserimento automatico e sblocco manuale
- Comando di discesa a due mani, a uomo presente
- *Actionnement au moyen d'une pompe manuelle*
- *Dispositif d'arrêt mécanique à introduction automatique et dégagement manuel.*
- *Commande de descente à deux mains de type "homme mort".*
- *Operated by means of hand-pump*
- *Automatically-engaging and hand-released mechanical lock device*
- *Two-hand "deadman" lowering control*
- Antrieb über Handpumpe
- Mechanische Stützvorrichtung mit automatischer Einrastung und pneumatischer Entriegelung
- Zweihand-Absenksteuerung mit Totmannsystem
- Accionamiento a través de bomba de mano
- Dispositivo de bloqueo mecánico a inserción automática y desbloqueo manual.
- Mando de bajada a dos manos de tipo hombre presente.

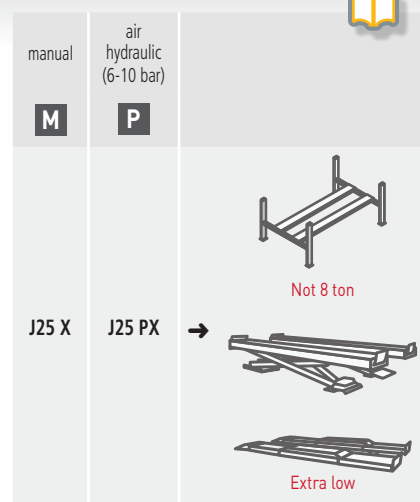

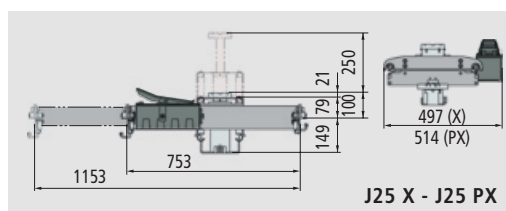

OPTION: J25 A1

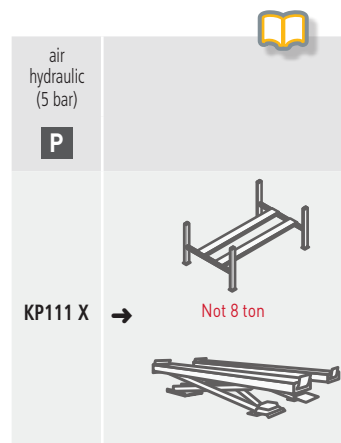

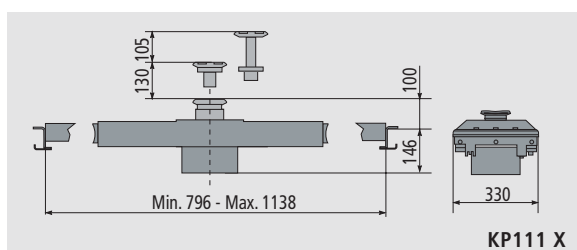

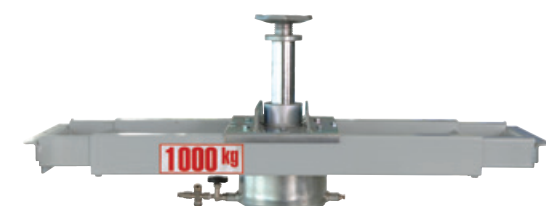

J25 SERIES - 2.000 kg

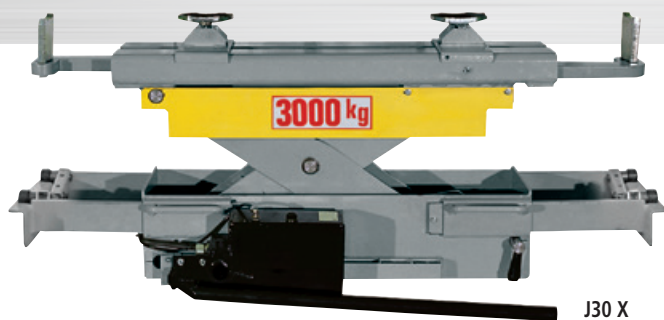

Grande flessibilità d'uso grazie al sollevamento centrale o con traversa (option)
Universal use thanks to center lifting or cross beam lifting (option)
 Grosse Einsatzmöglichkeiten mit dem Stempel oder mit der Querstrebe (option)
Grande flexibilité d'emploi grâce au levage central ou avec traverse (option)
 Gran flexibilidad de uso gracias a la presa central o con travesía (option)

KP111 X - 1000 kg

Traversa pneumatica.
 Pressione massima 5 bar.
Pneumatic wheel-free jack.
 Max pressure 5 bar.
 Pneumatischer Achsheber.
 Max. Druck 5 bar.
Traverse pneumatique.
 Pression maxi 5 bars.
 Gato neumático.
 Presión máxima 5 bares.
